Executive Summary

Cybersecurity student at Nanyang Polytechnic with hands-on IT support experience at Income Insurance and academic project experience in vulnerability assessment and network forensics. Familiar with Nmap, OpenVAS, Wireshark, and security monitoring tools. Interested in applying my technical skills in IT infrastructure, security operations, and vulnerability management while continuing to develop my cybersecurity expertise.

Technical Skills

- **Security Operations & Penetration Testing:** OpenVAS, Nmap, Wireshark, Sguil, Kibana
- **Systems, Network & Cloud:** Cisco Routing & Switching, Windows Server, Linux, Active Directory, Microsoft Azure (VMs)
- **Web, Programming & Data:** Python, Flask, SQLite, HTML/CSS, JavaScript, Power BI

Education

Nanyang Polytechnic | Singapore

Diploma in Cybersecurity | 2025 – 2028 (Expected)

- **Co-Curricular Activity:** Member, Board Games Club
- **Honors & Awards:** Director's List (Top 15%, 2025), Edusave Academic Achievement Award (2026)
- **Workshops & Conferences:** Attended NYP Infosec Cybersecurity Day (2026), Cybersecurity 101 (2025), and TicTacToe with NodeJS Workshop (2025).

ITE College Central | Singapore

Higher Nitec in Cyber & Network Security | 2022 – 2024

- **Academic Standing:** GPA: 4.0 / 4.0
- **Honors & Awards:** Outstanding Graduate Award (2025), ST Engineering Book Prize (2025), Silver Course Medal (2025), Director's List (Top 10%, 2022–2024), Edusave Skills Award (2024)

Deyi Secondary School | Singapore

GCE N-Level (Normal Technical) | 2018 – 2021

- **Academic Standing:** Aggregate: 5
- **Honors & Awards:** Academic Award for Math and IT (2021)
- **Co-Curricular Activities & Leadership:**
 - **Class IT Representative (2018–2021):** Provided first-level technical support for classroom AV systems and managed daily IT asset handling.
 - **Class Vice-Chairman (2019–2020):** Managed class affairs and organized student bonding activities.
 - **Dragon Boat Member (2018–2021):** Demonstrated physical resilience and teamwork through intensive training and competitions.

Work Experience

Income Insurance Limited | Singapore

IT Support Specialist (Internship) | Sep 2023 – Apr 2024

- Imaged, provisioned, and configured enterprise desktops and laptops via OS cloning and standardized configuration baselines.
- Enforced corporate endpoint security baselines and organizational policies across standard and BYOD devices
- Managed IT asset lifecycles, tracking equipment check-outs, returns, and maintaining accurate hardware inventory records.
- Delivered remote and on-site technical support for system patching, software deployments, and Tier-1/2 hardware troubleshooting.

Academic Projects

Virtual Server Vulnerability Assessment (Nmap + OpenVAS)

- Provisioned and executed vulnerability scans across two Linux virtual machines simulating an enterprise network environment.
- Identified 18 vulnerabilities, mapped CVEs by risk severity, and documented prioritized mitigation strategies for remediation.

Network Forensics & Ransomware Incident Investigation

- Investigated a simulated CryptoWall ransomware incident by analyzing PCAP files and network traffic logs via Wireshark, Sguil, and Kibana.
- Reconstructed the end-to-end attack timeline, identified critical Indicators of Compromise (IOCs), and recommended defensive controls including network segmentation and patching.

Web Application: Story & Memory Management (Flask + SQLite)

- Engineered a full-stack CRUD web application using Python (Flask) and SQLite to handle user posts and media interactions.
- Implemented backend input validation, session management, and defensive error handling to protect application data integrity.

Certification & Training

- **Fortinet:** NSE 1–3 (Network Security Associate), Information Security Awareness
- **Cisco Networking Academy:** Cybersecurity Essentials, Introduction to Cybersecurity
